# TASKFORCE® SERIES OF WET/DRY VACUUMS

Simultaneous wet and dry recovery, in a durable compact package

For reliable, wet/dry vacuum performance add the Taskforce® 1200, 1700 or 1700 Trot-Mop™ to your cleaning and maintenance arsenal. Constructed of rugged rotationally molded polyethylene, these units provide the performance and durability professionals have come to expect from Tornado®. Built-in carry handles and Tornado's® innovative lid design facilitate quick transport, cord management, and stackable storage on the 1200 and 1700 models.

The Taskforce® series has been designed with reduced sound levels in mind for use in health care, office, and hospitality facilities as well as other noise-sensitive environments. A unique cartridge filter permits simultaneous wet and dry recovery without the hassle of changing filters during a clean-up project. The housing allows easy access for maintenance and service needs. The Taskforce® Series is available as a traditional wet/dry vacuum or as an efficient Trot-Mop™ model with a two-way, 28" squeegee.

**Simultaneous wet/dry recovery**  
Both wet and dry recovery is possible without the need to change filters.

**Washable filter**  
The filter is easily removed from the float cage for washing and re-use.

**Rugged**  
Designed with harsh environments and rigorous applications in mind, the Taskforce® 1200, 1700 and 1700 Trot-Mop™ are constructed of heavy-duty rotationally-molded polyethylene.

**Stackable storage**  
Tornado's® innovative design allows easy storage in a corner or utility closet.

**Convenient**  
The molded-in carrying handle doubles as a cord wrap when the machine is not in use.

**Mobility and portability**  
Two-rear mounted wheels and two front swivel castors make transport simple. Molded-in grip handles, shown here, make carrying the unit or lifting and dumping debris easy.

## PRODUCT SPECIFICATIONS

MODEL	CATALOG NUMBER	MOTOR	WATERLIFT/CFM	CAPACITY	WATER RECOVERY	POWER CORD	DIMENSIONS (L X W X H)
TASKFORCE® 1200	94220	115V 2-Stage Bypass	80"/115	12 GAL	8.8 GAL	25 FT, GFCI	18" X 17" X 26"
TASKFORCE® 1700	94225	115V 2-Stage Bypass	84"/120	17 GAL	13.8 GAL	25 FT, GFCI	18" X 17" X 30"
TASKFORCE® 1700 TROT-MOP™	94224	115V 2-Stage Bypass	84"/120	17 GAL	13.8 GAL	50 FT, GFCI	18" X 22" X 30"
